

Dianne Rosensweig, M.S.

Ms. Rosensweig is the Mater of Public Health at the University of South Florida. She is also a Senior Environmental Scientist at Scheda Ecological Associates in Sarasota, Florida.

A scientist with extensive experience in managing and conducting biological assessments including modification of marine, estuarine, and freshwater wetland environments. Ms. Rosensweig also assisted in the development of alternatives to minimize wetlands impacts.

As staff biologist for the United States Army Corps of Engineers (1985-1990), Ms. Rosensweig conducted permitting meetings, wetland jurisdictional determinations, migration plan review, and review of dredging and fill permit applications.
