

Elizabeth Penny Morgan

When these profiles are created they are normally encumbered with higher education degrees and professional titles galore. Not true in Elizabeth Penny Morgan's life. Instead Elizabeth worked and tackled quality of life issues in her community area.

Her association with troubled schools and troubled families led her to write two books: Tell Your Mother and Fair Play. Both works have been reviewed and discussed on national TV and by church leaders, therapists and psychologists. Some of her other accomplishments are directing a children's theatre and writing children's short stories, three act plays and a novel. She tops it all off performing as a singer. Pretty good for someone who might be labeled "just a housewife."

And that may be the strength of Elizabeth Penny Morgan. She took the one time motto of the US Army "Be all you can be" and proved that what is inside will surface if you persevere. Titles don't make people outstanding - strength of character is what makes it all happen.
