

Francis G. Mercuri, Class of 1988

Frank Mercuri is remembered for playing Soccer and Lacrosse in High School, and for playing saxophone in the school band. He was also chosen for the National Honor Society.

Upon graduation from High School, Frank went on to get his Bachelor of Science in Electrical Engineering and Applied Mathematics from Stony Brook University. His first position was as Engineer at the Government Systems Division of General Instrument Corporation in Hicksville, where he designed and built a Primary Tester for the US Navy.

In 1991, Frank moved on to Litton Applied Technology as a Senior Engineer, where he worked on a variety of projects while supervising a team of production and software development engineers. In 1993, he was offered a position at Northrop Grumman and left Long Island to move to sunny San Jose, California.

Frank quickly rose up through the ranks during his years in San Jose, beginning as an Engineering Specialist, moving on to become Manager of Electrical Design, and finishing his tenure there as Chief Project Engineer. In 2003, Frank won the Northrop Grumman President's Leadership Award. In 2007, he was transferred to Grumman's facilities in Linthicum, Maryland where he remains to this day. He is currently a Senior Advisory Engineer in the Electronic Warfare Systems Engineering division, and is responsible for advanced projects that span air, land, sea, and space.
